# LightSquared

The first wholesale-only 4G-LTE wireless network operator, integrated with satellite coverage, delivering the speed, value, and reliability of universal connectivity, anywhere in the United States.

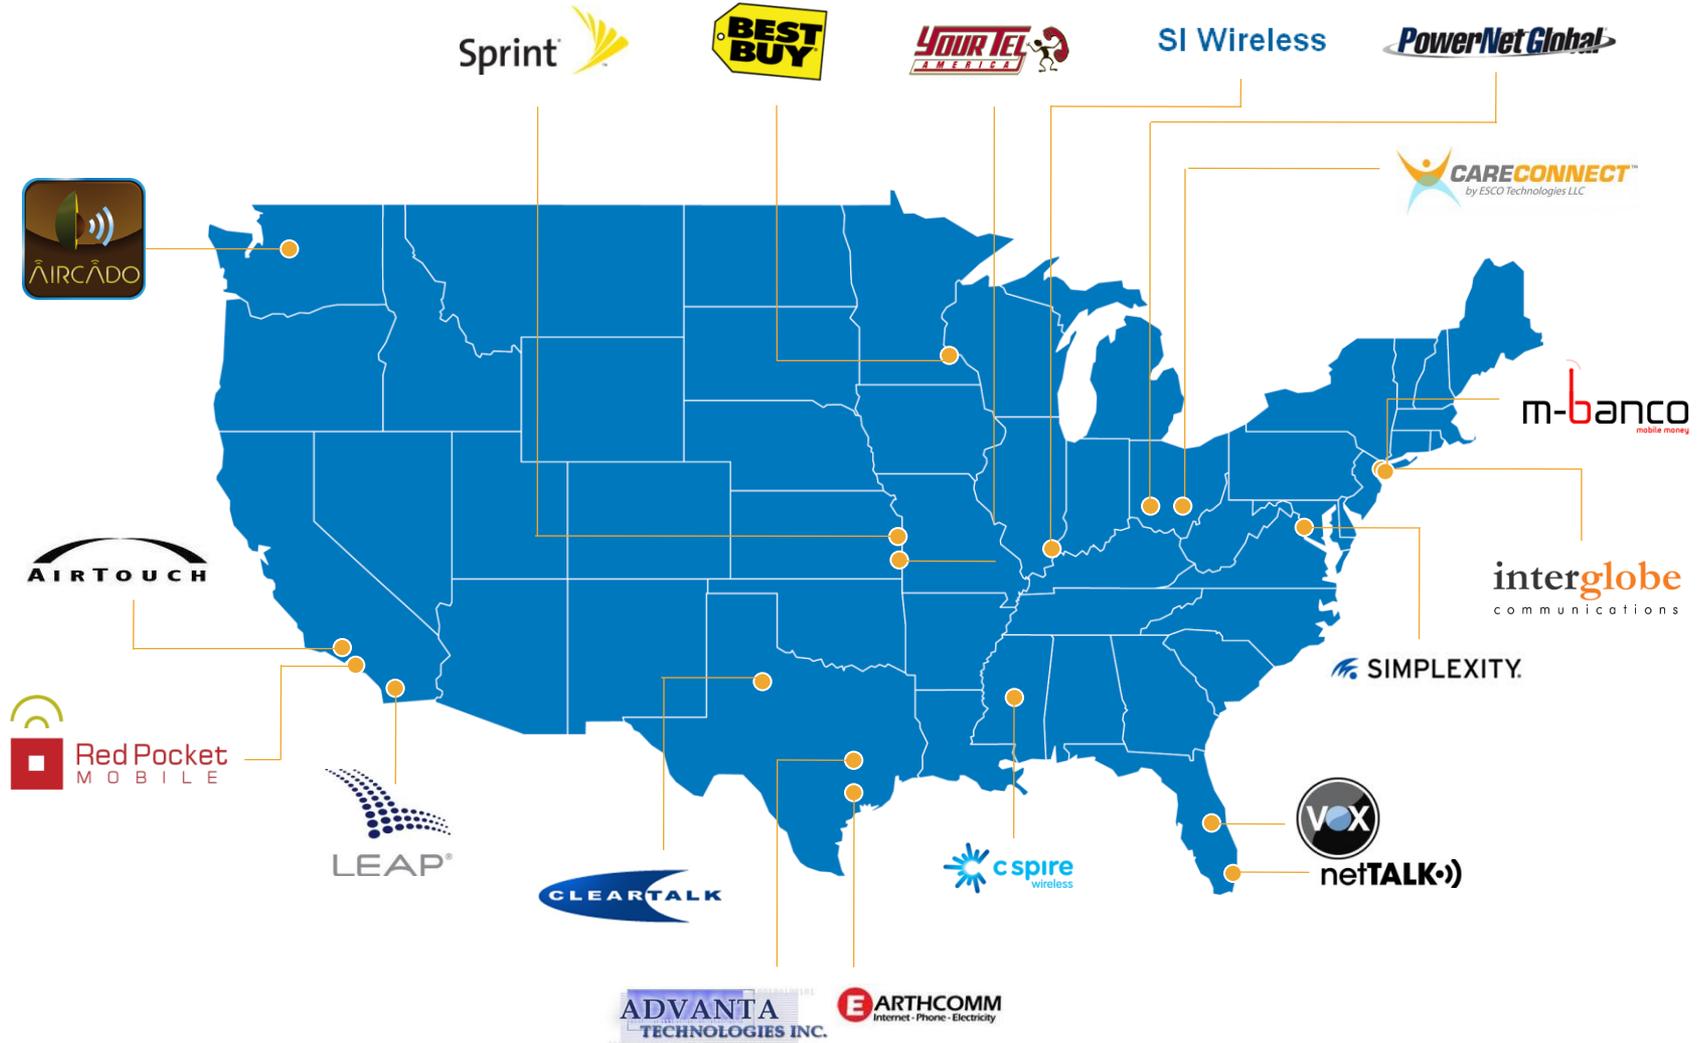

Satellite + Terrestrial = **Constant Connectivity**

# The LightSquared Wholesale Model

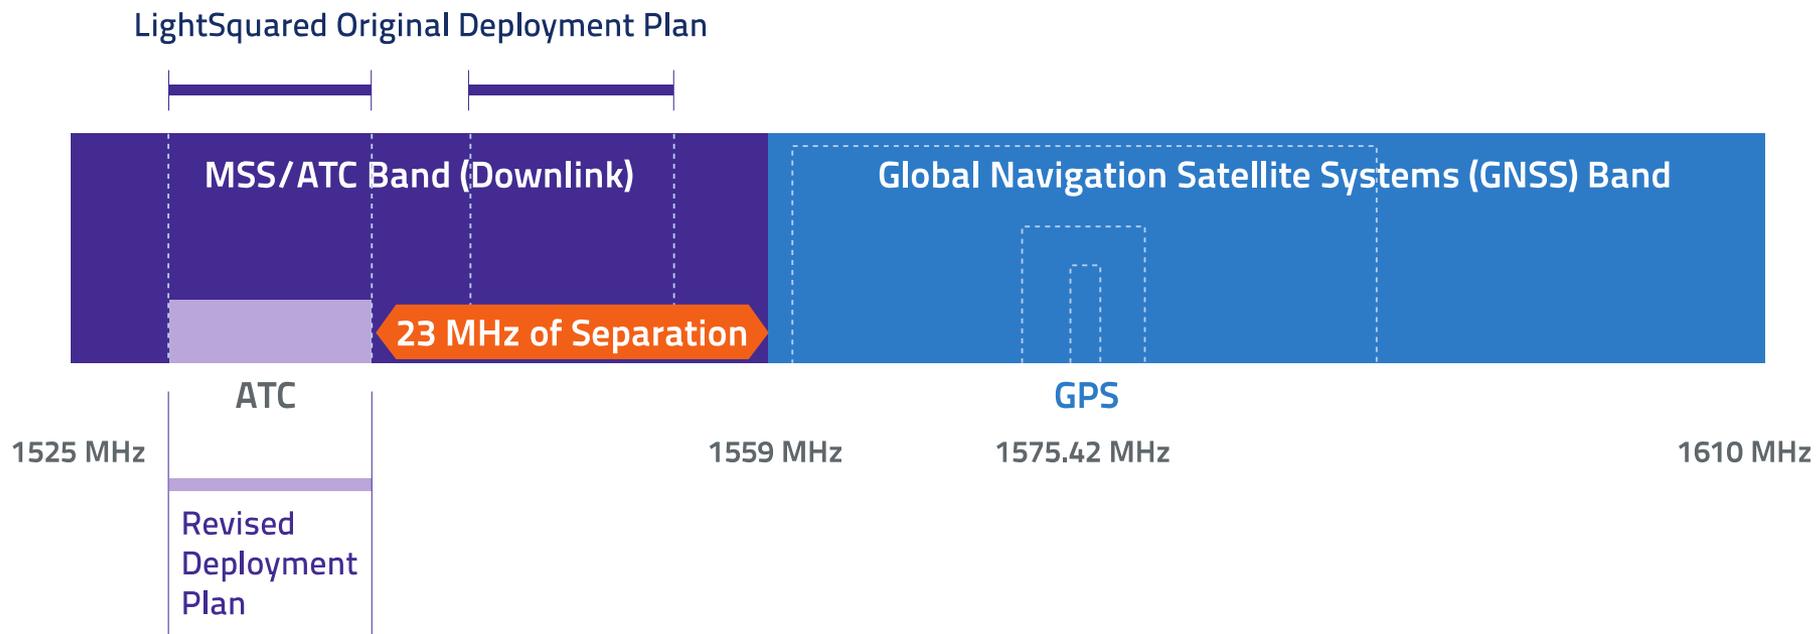

**Our model enables wireless competition across a broad range of industries**

# Clear demand across the country

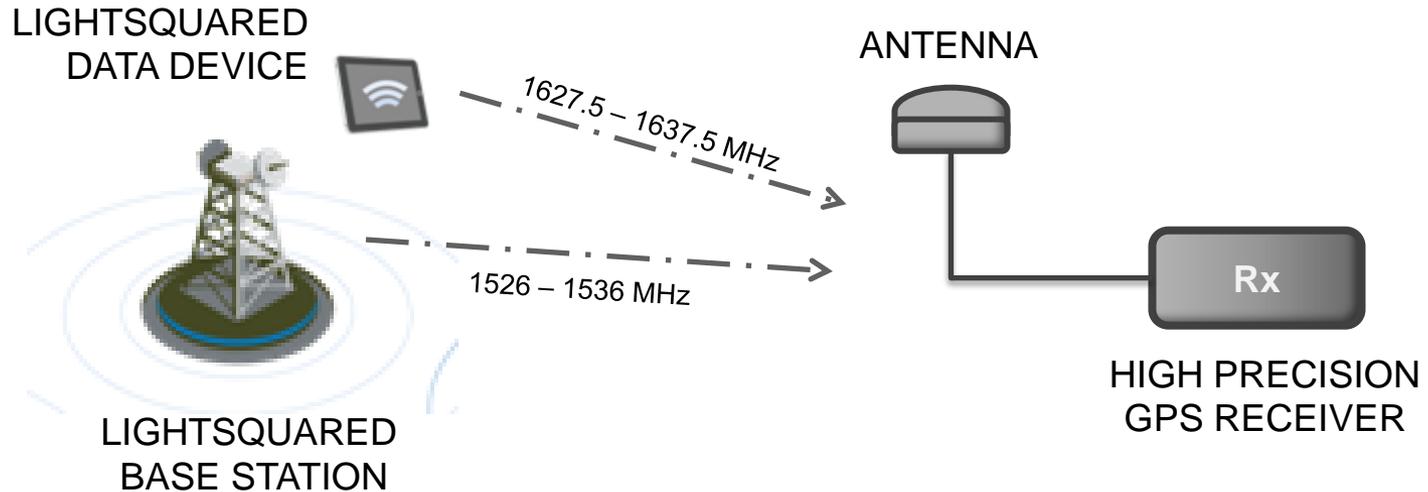

# LightSquared and GPS coexistence

Plus LightSquared commitment to maximum ground power levels

# Demonstrated technical feasibility and ecosystem enablement

## LightSquared-Compatible Antenna Solutions

**JAVAD**

**PCTEL™**  
*simplifying wireless*

## LightSquared-Compatible Filter Solutions

**partron**

**AVAGO**  
TECHNOLOGIES

**Plus Three Tier 1 High Precision GPS Manufacturers**

# LightSquared Offers Superior Communications for GPS

- LightSquared's network design and wholesale model create superior RF connectivity at significantly lower cost
- Changing paradigm for all GPS manufacturers
- Javad was the first to recognize this enormous opportunity
